## What is AKITAVAX?

Akitavax is a community driven ecosystem aiming to involve all the token holders to contribute in our social and artistic movement.

## Tokens

Two tokens named \$AKITAX and \$XAKITA are minted in line with the community driven strategy.

## Purpose

The first intention of Akitavax is to be the premier community token and symbol of The Avalanche Ecosystem.

### Flagship Token

\$AKITAX Token is released to be the flagship token of The Akitavax Project running on Avalanche Network.

### Investment Tools

\$AKITAX Token is designed to be used for crypto investment tools such as - Swapping, Farming, Lending, Borrowing and Staking.

AKITAVAX

## What is \$AKITAX?

The idea of the fairest ecosystem is the starting point of The Akitavax Project, and \$AKITAX Token is planned to be at the center of this ecosystem.

### Swap

It is aimed to make exchanges between parities on The Avalanche Ecosystem with The Akitrade interface.

### Stake

In the first phase, two types of stake pools will be offered. Both \$AKITAX and \$XAKITA tokens can be earned with apy rates determined periodically by staking \$AKITAX token.

### Farm

Liquidity pools that have already been created are listed to stake liquidity pool tokens.

## Finance, Technology and Akitavax

DEFI and Non-Fungible Token (NFT) revolution gave people chance to be part of something valuable in a more accessible way. Mission of Akitavax here will be to serve the community members with a fair ecosystem. At the same time, Akitavax aims to follow an environmentally friendly way with the social responsibility projects it will carry out. In this way, it will try to set the right example in the crypto world.

### Decentralized Launchpad

\$XAKITA Token is released to be the decentralized launchpad token of The Akitavax Project running on Avalanche Network.

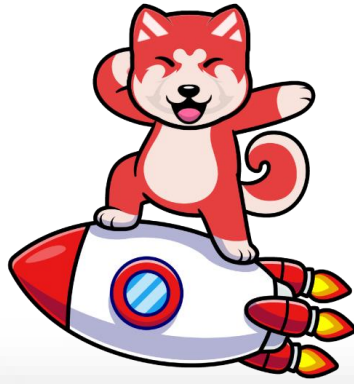

### Fair Structure

\$XAKITA Token holders will have the right to participate in projects to be carried out on The Akitapad. At the same time, projects to be launched will be selected by votes of The Akitavax Community members.

AKITAVAX

## What is \$XAKITA?

\$XAKITA Token is intended to be used for a fair launchpad structure and social responsibility activities. A specific part of \$XAKITA Token funds will be used for social awareness projects to support sustainability of earth life. \$XAKITA Token will build the fairest structure on both project selection and allocation part on the launch mechanism.

## Stake

Members gain an allocation to participate the projects that will launch on the platform in proportion to the \$XAKITA they stake.

## Vote

The projects to be launched on The Akitapad will be selected by votes of The Akitavax Community members.

## Launch

Startups who want to launch on the platform can fill out the IDO application form and send it for review. At the same time, it is aimed to provide consultancy to support startups and to increase their earnings.

# Akitapad on Akitavax

Akitapad is a platform that will allow newly issued projects to be listed with a fair tier structure. Members gain an allocation to participate the projects that will launch on the platform in proportion to the \$XAKITA they stake. In this way, a fair structure is built in participation.

## VR Games

A game platform will be created that will provide players with an immersive and profitable gaming experience with various VR games.

## VR Concerts

Participants will have a real festival experience in an interactive environment with many artists representing various musical styles.

AKITAVAX

## Avaverse

Avaverse is a metaverse is simply a wide expanse of digital space where users can interact with each other in real-time and get similar experiences to what they experience in the real world, and most cases even more.

### Easy to Access

It will be accessible on the Akitavax website, also on App Store and Play Store for mobile phones.

### Interplay

Players will be able to interact with each other through their own avatars and also compete each other.

### Play to Earn

All players will have an equal chance to earn various rewards based on their time spent in the game and their achievements.

## VR Games

It is designed as a game bundle that will include games in styles that will appeal to different game tastes. The first game is planned to be an immersive and lucrative skiing game named Sky Mountain. The subject of Sky Mountain can be summarized as an Akita breed dog skiing against the magnificent landscape on the mountain.

## VR Concerts

Digital music platforms that appeal to different styles will be designed at Avaverse, where valuable artists will be invited, and magnificent music shows will be held. It is aimed to offer more than a real concert experience to the participants. Participation will be provided by purchasing tickets to VR concerts, and different rewards can be earned with many interactions on the concert. In addition, \$AKITAX Token holders will be able to enjoy various benefits.

### Interaction

Participants will be able to interact with other participants in various ways while having fun with music.

### Various Arenas

Participants will witness the musical experience on the concert stages with varied and extraordinary concepts.

### Visual Shows

Depending on the musical rhythm of the concerts, many visual shows will be presented on various platforms and on the stage of the arena.
